

# Lower Los Angeles River Revitalization Plan

Volume 1: People + Place + Process + Projects | Volume 2: Technical Plan Development

# Acknowledgments

As Chair of the Lower Los Angeles River Revitalization Plan Working Group, I would like to thank the following individuals for their time, expertise, and dedication which were invaluable during the community input and planning processes. They spent thousands of hours collaborating with one another to develop, review, and refine the content of this Plan which would not have been possible without their efforts. Additionally I would like to extend a special thanks to those community members who used their valuable time to attend a meeting, join a bike ride, watch a movie in the river or in some other way lent their voice in the planning process.

Thanks for thoughtful contributions goes to:
